IS CHICAGO'S TURN

To Do Honor to Two Distinguished Guests,

President Cleveland and the Duke of Veragua.

ROYAL WELCOME TO BOTH.

The Old Liberty Bell Comes In for Its Share.

Officials Making Every Effort to Get Ready

In Time for the Opening Exercises on Monday-An Extra Force of Men at Work in All the Departments-The Plans for the Unfolding of the Flags When President Cleveland Presses Completed.

CHICAGO, April 29.-The day has been chill and dreary in the world's fair city. but it has not been bleak enough to chill the generous welcome that the people of Chicago extended to President Cleveland, the Duke do Veragua, the lineal descendent of the great Columbus. Despite the northwest winds that swept through the streets, laden at times with a blinding rain, thousands of people assembled at the various points of interest to do homage to the distinguished arrivals of the day. reception of the duke and President Cleveland, and each was given a series of ovations at every point he visited throughout the day. The the world's fair grounds, instead of reviewing the parade that had been arranged in honor of the distinguished visicipient of great attention all day, respond- painted, will be white as purest marble. and infalliable grace that distinguishes the nobles of the Castilian race.

The President Will Rest. The president and his cabinet seem inclined to reserve their forces for the ordeal which Monday must inevitably bring, while the duke seemed anxious to repay the hospitality of his hosts by responding to every suggestion made for his entertainment. When the day closed the visitors as well as the reception committees must have been heavy with fatigue, but Sunday will give all an opportunity to recuperate for the opening exercises of the 1st of May. Equally impressive among the events of the day were the ceremonies attending the installation of the historic old Liberty bell of Philadelphia in the tower of the Pennsylvania building at the world's fair. Thousands of people witnessed the ceremonies as the huge bell was placed in the rotunda under the big tower, which is an exact reproduction of that historical old tower of Independence hall at Philadelphia, where the bell tolled out the declaration of independence and defiance 117 years ago.

At the Hotel. On reaching the Lexington hotel, the president wrote his name upon the hotel register, as did Secretary Gresham, Carlisle, and that of Mrs. Carlisle. the clerk entered the names of Secretary and Miss Herbert, Hoke Smith and Secretary Morton and son. The officials went directly to lunch, Mr. Cleveland taking Mrs. Carlisle in upon his arm. Leaving the ladies immediately after lunch the president and those of his colleagues named donned their wraps and led by Mr. Higginbotham and other world's fair officials, they descended by a private stairway and entered carriages so quickly that not fifty persons saw them or knew of their going. The drivers hurried their teams away, turning down Michiganave., toward the fair grounds. The president desired to go about the fair grounds and see the fair building quietly and only as an individual so far as that might be possible. He would not do so Sunday, and on Monday or thereafter he Then the "old flag" will burst would be quite unable to go about without an embarrassingly large attendance. Hence it was that those in the Liberty bell procession were disappointed in their expectation of a review by the president.

This evening President Cleveland and Sccretaries Carlisle, Herbert and Morton attended theater as guests of President Higginbotham, viewing at the Auditorium "America," a historical allegory depicting the principal events in American history gince Columbus' first conception of his voyage in search of a new passage westward to the Indies. Secretary Gresham was not with the party, having accepted an invitation to dine with friends in the

The Sunday Program.

Tomorrow will be marked by no significant events. The president and his cabinet will rest during the day, and will drive through the parks in the afternoon, The duke de Veragua and his party will attend mass at the Holy Family church, May and W. Twelfthsts., at 10:30 o'clock tomorrow forenoon, Mgr. Satolli is expected to be here and celebrate pontifical mass. Elaborate preparations have been made by the priests of the parish for the reception of the distinguished worshiper. The interfor of the edifice about the altar has been festooned with sweet-smelling flowers and the whole will be brilliantly illuminated.

The ducal party will occupy a space reserved for them immediately in front of the altar railing. Many clergymen from the other parishes of the city will be present and participate in the services if Mgr. Satolli consents to officiate.

Getting Things in Shape.

Tonight and for the few remaining hours ready at the opening of the world's fair before this has never been seen. In the manufacturers' ball, particularly, every possible effort is being made to get matters in shape for the reception of the presidential party Monday. Chief Allipoints about the place which read like

comes, no matter how dark the clouds are, when the woman who is borne down by woman's troubles turns to Dr. Pierce's Favorite Prescription. If her life is made gloomy by the chronic weaknesses, delicate derangements, and painful disorders that afflict her sex, they are com-pletely cured. If she's overworked, nervous, or "run-down," she has new life and strength.

"Favorite Prescription" is a powerful, invigorating tonic and a soothing and strengthening nervine, purely vegetable, perfectly harmless. It regulates and promotes all the proper functions of womanhood, improves digestion, enriches the blood, dispels aches and pains, brings refreshing sleep, and restores health and vigor. For every "female complaint" and disturbance, it is the only remedy so sure and unfailing that it can be

pressed into service. Everywhere the construction department is rounding up its work; not merely cleaning up as it did last October, but putting finishing touches to permanent work. The landscape department is bending its. whole energies to the work of putting the roads in good condition. Hundreds of the Button-The Woman's Building | men and teams are making good roads out of what the nation has done, feelof bad, dumping loads of white macadam | ing that it is highly honored by your presence, in soft places and covering the whole with

If it doesn't benefit or cure, you have your

a dressing of brown gravel. Second in importance to the roads is the clearing away of all temporary structures and the laving of green grass on bare places, which has proceeded with excel- tributed largely to the progress and improvelent results as far as the general effect is concerned. Scaffolding, always a blot on the landscape, has fallen like magic.

The Electric System. An important clearance today was the removal of all overhead electric wires and poles supporting them. ing invariably with the uniform courtesy Today the last plank was torn from the casting which surrounds the statue of the republic, and the great, gilded figure shown in all the splendor of a five-thousand-dollar coat of gold leaf. Then the last figure was placed on its pedestal on the peristyle and the last piece of scaffolding came down from the Columbus quadrigs. With the macmonnies fountain complete and ready to spout water, the statuary around the grand basin will be perfection Monday. The rain that has brought grief to most departments has been a welcome gift to the men who are preparing the gardens about the grand basin. The grass is as green as emeralds, and the firs and plants in the fountain vases along the walls of the lagoons and around the fountains are bursting with new life. Everything will look its best on Monday, if only the sun will

shine. There will be no choral music at the opening Monday, either on account of an oversight on the part of the construction department, or because of the limited space the platform. Secretary George

Wilson said this afternoon the music will consist of orchestral pieces only. Until the last minute we intended to have a grand chorus on the platform, but for some reason no provision had been made for it. Under the circumstances there was but one thing to do and we decided to eliminate the choral music from the program. We arrived at the decision as soon as we discovered that it would be impossible to seat the singers on the platform as constructed.

The Flags Will Unfold. The grand stand which fills up the east entrance to the administration building and projects out on either side in front of the pavilions will seat 2,000 invited guests, 250 newspaper representatives besides the fifty distinguished guests who will be on the little platform which has been thrown out in front for President Cleveland. When the president touches the button 700 flags and banners on the main will break into gracefolds. Jimmie Hunt, an old sailor, will have his eye on the president and his hand on the halliard of the center flagstaff in front of the administration building, and when the executive finger touches the button Jimmie will give the halliard a quick pull. out at the top of the pole, and the stars and stripes will wave over an open fair. The flags on the other buildings will be unfurled simultaneously. About 700 men will be necessary to carry out the designs of the decoration department. There will be a man for each flagstaff on the main buildings and grounds.

GRANTED FREEDOM OF THE CITY. Chicago's Welcome to the Lineal Descendant of Columbus.

With imposing ceremonies the freedom of the world's fair city was, today, extended to the descendant of that great discoverer whose achievements are celebrated in the quadro-centennial Columbian exposition. All day the Duc de Veragua and his retinue were the objects | tion of the Florida flag, followed by the of distinguished consideration by the state and nation. Early in the afternoon a reception was held by the duke and his party to the distinguished officials and citizens in the private apartments at the Auditorium hotel, apartments worthy of the occupancy of princes, which had been prepared for the duke and his party. For the duke had been set aside the entire south portion of the parlor floor of the hotel including, in all, seven spacious apartments. No pains have been spared to provide every possible comfort and convenience for the eleventh grandson of the great discoverer, the private parlor being upholstered in damask plush. The dining room was of cherry finish and furniture. and the finest silver and cut glass table service in the hotel occupied the carved sideboard. The ducal bed-room was most luxuriant in its appointments and was furnished with plush-covered couches, divans, easy rocking-chairs and every known consuch striving and struggling in order to be trivance for restful attitudes. From the floriculture department at the world's fair were sent flowers and plants enough to almost fill the rooms. On the dining table stood, when the duke sat down to his luncheon, a large bouquet of Spanish flowers. The private halls son has put up signs at all conspicuous were lined with palms and ferns and blooming potted plants were in profusion everywhere. The great granite pillars on the balcony over the main entrance to the hotel were covered with the United States and Spanish flags. At the first pillar from the southern end of the balcony a parti-

spacious private lodge, where the ducal tucky, California, Cincinnati and New

Honors Done by Mayor Harrison. Shortly after 3 p. m. Mayor Harrison of Chicago and the aldermanic committee, with M. B. Madden as chairman, called officially to welcome the duke and extend to him the freedom of the world's fair city. Thousands of people were assembut the formal ceremonies took place in the private apartmenst of the duke, and were invisible to the anxious multitude on the outside. Accompanying Mayor Harrison as he entered the ducal spartments were the prominent officials of the national commission and the local directory who had played such an important part in all of the forduke, and the latter returned the greeting with a graceful salutation. The mayor Columbus and said: Your grace, the people of an entire hemis-

here recognize that the debt due Christopher olumbus is so vast that it can never be paid. The United States, a part of that hemisphere, a country more powerful than was the whole of Europe when Columbus lived, desirous of showing their appreciation of the mighty boon he conferred upon the world, have invited you, his lineal descendant, to become their guest while they celebrate the discovery of America through the Columbian ex-The city of Chicago, proud thereby aiding Americans to become more familiar with your great ancester, has instructed me, its chief magistrate, to receive you and to extend to you its courtesies. We recognize in you, not only one in whom the blood of Christopher Columbus flows, but one who has conment of your kingdom and your countrymen. We have heard that you are deeply interested in agriculture, the corner stone of western American institutions and source of the wealth of our city; that you have been profoundly interested in the improvement of roads, which are necessary to the happiness and prosperity of a country; but above all that you have been devoted to the educational affairs of your people, that when the issue arose whether the army or the school teachers should be paid you decided in favor of the teachers, for you know, as we know, that peace has its victories as well as war. Holding you therefore in high respect because of your lineage and because of your patriotic achievements the citizens of Chicago direct me, their chief magistrate, to present to you the freedom of the city. This presentation confers upon you no tangible privilege, but it does conferupon you the homage of our citizens and the freedom of their homes and their hearts. Your grace, I welcome you to Chicago you feel compelled to leave us, and hope that you will, on your return, find your country prosperous and your home a happy one. As the mayor completed his address he

council with a beautiful key of gold, on key to the city. The mayor also presented his grace with a beautiful Morocco volume, in which was inscribed the proceedings of from the placers of Highland, south of the city council at its meetings last week, in which resolutions were adopted welcoming the duke and extending to him the freedom of the city.

The Duke's Reply. The duke, in accepting these testimonials, bowed and in a low tone responded in English as follows:

When I received the invitation to attend the opening of the world's Columbian exposition I did not realize how many satisfactions were awaiting me in this country. In landing on the continent discovered by my illustrious an cestor my heart was full of emotion, and feared that my personal conditions were not as great as such memory requested; but now, in the midst of you, I feel that such great proofs of sympathy give me strength to respond to the great honor Chicago confers upon methe freedom of a city that in twenty years has grown greater than the greatest town in the world, and which, on this occasion, commemorates the wonderful discovery and honors my ancestry and myself. I beg you to express my gratefulness to Chicago, and, with all my heart, I express my thanks for such a cordial

we come. At the conclusion of the duke's remarks Mayor Harrison stepped forward and gaid:

Your grace, permit me to introduce to you the committee of aldermen, representing the council. This is Alderman Madden, the chairman of the committee; Aldermen Powers, Kerr, Mahoney and McGillen, I will say to your grace, that these gentlemen represent four or five nations [laughter]; but I am sorry to say that there is not a Spaniard among them; but if I continue to be mayor of Chicago, I will insist that one shall be elected. Laughter. | This is Mr. Kraus, the legal adviser of Chicago. He used to belong to Spain because he is a Bohem an. [Laughter.]

WOMAN'S BUILDING DEDICATED.

Mrs. Potter Palmer Wielded the Hammer in Fine Style. Women were in full control of Jackson park today, and, in spite of dark clouds, chilling winds and seas of mud, a mighty concourse of them gathered to assist in the dedication of the woman's building this afternoon. The first train that arrived on the grounds this morning brought women, and each succeeding train brought more. Upon the drives, around the lagoons, in the buildings and down the plaisance they have wandered all the forenoon, waiting the opening exercises, and still the trains came bearing thousands of women attired in gossamers and rubbers and armed with umbrellas. The scene in the great building of the gentle sex was bewildering. Women, women everywhere, chatting, laughing and even screaming, every one talking of the fair, of the building and of the exercises in which they were to figure. and of the golden nail, which was to be driven by a silver hammer held by Mrs. Palmer, marking the completion of the building. The assembled women seemed somewhat disappointed at the apparently unfinished condition of the building. There is still a great amount of frescoing to be done, and the exterior is yet to be

HONORING LIBERTY BELL.

Old Relic.

Beneath leaden skies in a damp and chilly atmosphere, and a strong northeast wind which, blowing off the blue breast of on the noses of the thousands of spectators who lined the streets and boulevards. Pennsylvania's choicest relic, her great Liberty bell, was today deposited within the walls of her state building at Jackson park. The bell during its progress to the park was the recipient of a continued ovation. It was escorted by the 'highest officials of Philadelphia and Chicago, surrounded by marching troops of regular and citizen soldiery, and saluted by the president of the nation whose birth it announced to the world. All through the neath the Jackson-st. bridge, surrounded by hundreds of people, who gazed curiously at it as it hung from its large yellow and they "shot" it at frequent intervals, until it was mounted on its car for the tritaken out into Canal-st., where it was reimmense crowd.

Little delay was experienced in starting | and speedily curing them. the procession, and it was soon on its way across Van Buren-st, bridge, headed by the detachment of mounted police, close ond infantry of the Illinois national guard, which discoursed patriotic music unceasingly. Then came a platoon of police on foot, sweeping the street from curb to curb, and making way for the bell on its handsomely decorated float, which, drawn by six horses, came close behind The float was decorated by the West Side woman's club, which had spared no pains or expense in providing a fitting conveyance for the grim old reic. The sides of the float were gay with bunting, the surface beneath the bell was a mass of red and white, while at the four corners were flags which flapped and bent their staves in the strong breeze. Upon the cars, keeping close watch upon their precious charge, were its four stalwart. blue-coated guardians, who had come from Philadelphia with it in their keeping. Then, clattering over the granite pavement, came the guard of honor, the Chicaresplendent in all the bravery of gold lace and brand new uniforms came the governor of Illinois, John H. Altgeld, and his staff. Behind the corps of George H. Thomas cadets were Mayor Stuart of Philadelphia and Mayor Harrison of Chi-Philadelphia—the members of its city Then the city council and dignitaries of Chicago, the members of the World's Columbian commission, the world's fair directory, the local society of the Sons of Pennsylvania, various civic societies and a long succescitizens, who had turned out to express I have been obliged to give up work many their respect and veneration for the liberty bell.

"I resolved to go back to the doctors again, though their treatment had done me no good before. I was told that medicine was no good for me, that what I needed was a long rest. I could not take work for my living, and so I kept along, gold and other gold and silver ornaments and taking what stuff the doctors prescribed, but feeling no better, except for a day or two at a time.

"Finally my legs and hands began to sche and swell with rheumatic pains, and Take Simmons Liver Regulator for I found I could not sleep at night. If I lay down my heart would go pit-a-pat at

a great rate, and many nights I did not | CTATE OF INDIANA, MARION COUNTY, 88: close my eyes at all.

"I was broken down in body and discouraged in spirit, when, some time in February last, I was reading in the Montreal Family Herald and Weekly Star, which we take every week, of the great cures made by Dr. Williams' Pink Pills for Pale People. I got a couple of boxes for my wife to see if she would be helped any by them, and then I tried them myself. I did not put much stock in them at first, but before I had finished the first box I noticed that I was feeling better. The palpitation of my heart, which had bothered me so that I couldn't breathe at times, began to improve. I saw that in going to my home on the hill from the depot, which was | 12th day of June, 1893. previously an awful task, my heart did not beat so violently, and I had more breath when I reached the house. After the second and third boxes I grew better in every respect. My stomach became stronger, the gas belching was not so bad, my appetite and digestion improved and my sleep became nearly natural and undis-

"I can confidently and conscientiously say that they have done me more good, and their good effects are more permanent, than any medicine I have ever taken. My rheumatic pains in legs and hands are all gone. The pains in the small of my back, which were so bad at the small of my back, which were so bad at times that I couldn't stand up straight, have nearly all vanished, and I find my kidneys are well regulated by them. This is an effect not at the Auditor's office of Marion County, Indiana, will on the 10th day of May, 1803, at 2 o clock p. un. times that I couldn't stand up straight, have nearly all vanished, and I find my kidneys are claimed for the pills in the circular, but in my case they brought it about. I can now go up any hill without the slightest distress or palpitation or loss of breath, and am feeling 100 per cent, better in every shape and manner.

"They have been a saving of money to me, for since I began their use I have not been obliged to lose much time away from work. am still taking the pills and mean to continue them until I am certain my cure is a thorough and lasting one."

After talking with Mr. Vose at the depot. where his engine was in waiting, the reporter went to the house where Mrs. Holt, the other patient for whom the pills have done so much received him and gave an extended account of her experience with them. Mrs. Helt said: "I am fifty-seven years old, and for fourteer years past I have had an intermittent heart trouble. Three years ago I had nervous pros-

tration, which left me with a number of ail-

ments, for which I have been doctoring unsuc-

cessfully ever since. My heart trouble was in-

that I had to lie down most of the time. My

intense pain from the back of my neck to the end of my backbone. I went to physicians in Jeffrey, Newport, Alsted, Acton and here in Peterboro, but my health continued so miserable that I gave up doctors in despair and lost faith in medieine altogether. I began to take Dr. Williams' Pink Pills last winter, more from curiosity than because I believed they could help me, but the first box made me feel ever so much better. I have taken the pills since February last and they have made me feel like a new woman. The terrible pains in my sprual column and in the region of my liver are gone, and I believe for good. My palpitation has only troubled me three times since I commenced using the pills, and my stomach now performs its functions without giving me the great distress which formarly followed everything I ate. The pills have acted differently from any medicine I ever took in my life, have tried everything-doctors' medicines, patent medicines, sarsaparillas and homocopathic doses. In fourteen weeks three years ago I spent \$300 for doctors' bills and medicines, and since then have put out as much

was only temporary. "With these pills, however, the effects are different. They are not cathartic like other pills I have taken, but seem to act directly upon the stomach and liver without any loosening of the bowels. My sleep, too, has wonderfully improved since I began their use. For a long time before I took these pills I lost sleep night after night with my heart and pains in

more money, but the relief I obtained, if any,

"My improvement in health is a source of remark on the part of those who have known how sick I was. My husband, who didn't know I was taking the pills, is delighted at the noticeable betterment in my health, and upon learning the cause of it urged me to continue the use of the pills. This impulse, however, is not necessary, as I have been too sick in the past not to fully appreciate the value of a remedy that has done me so much good. Dr. Williams' Pink Pills are certainly a grand medicine, and from my experience with them can obserfully and cordially recommend them to any one who is troubled with heart palpitation, indigestion liver complaint, and the many ills consequent upon nervous prostra-

Dr. Williams' Pink Pills are not a patent medicine in the sense in which that term is usually understood, but are a scientific preparation, successfully used in general practice for many years before being overed to the publie generally. They contain in a condensed form all the elements necessary to give new life and richness to the blood and restore shattered nerves. They are an unfailing specific for diseases as locomotor ataxia, partial paralysis, St. Vitus' dance, sciatica, neuralgia, rhenmatiem, nervous headache, the after effects of la grippe, palpitation of the heart, the tired feeling resulting from nervous prostration, all diseases depending upon vitiated humors in the blood, such as scrofula, chronic erysipelas, etc. They are also a specific for troubles peculiar o females, such as suppressions, irregularities and all forms of weakness. They build up the blood and restore the glow of health to pale or sallow cheeks. In case of men they elect a radical cure in all cases arising from mental worry, overwork or excesses of whatever nature. They are manufactured by the Dr. Will-(never in loose form, by the dozen or hundred) at 50 cents a box or six boxes for \$2.50, and may be had of all druggists or direct by mail

from Dr. Williams' Medicine Company from either address. The price at which these pills are sold makes a course of treatment comparatively inexpen-
